SIX MONTHLY PROGRESS REPORT FORM

FOR CLINICAL TRIALS

INSTRUCTIONS

1. This form is to be completed six-monthly from the date of approval of the clinical trial by the South African Health Products Regulatory Authority (SAHPRA).

2. The applicant/sponsor must complete Parts A and B.

3. Part A is specifically for the study participants in South Africa.

4. Part B is an overall safety line listing for the study in South Africa (and any other issues of special concern outside South Africa) and includes all Serious Adverse Events (SAEs) and Suspected Unexpected Serious Adverse Reactions (SUSARS) for all participants in this study.

5. *Note:* Protocol Deviations must be reported separately, six-monthly to SAHPRA. Protocol deviations are not part of the report but should be submitted as a separate communication at the same time as this report.

6. The End of Study progress Report should include the summary of investigational product authorized for importation (initial and amendment), quantity imported, used and remaining (destroyed) at end of the study.

   Note: The End of Study report should be submitted 30 days after completion or termination of a Clinical Trial.

CLINICAL TRIAL SIX-MONTHLY PROGRESS REPORT

PART A: STUDY OVERVIEW SOUTH AFRICA	
1 SAHPRA Database tracking number	n/a
2 Study Title	Individual Participant Data meta-analysis to quantify the impact of high ambient temperatures on maternal and child health in Africa
3 Protocol number	HEAT001
4 *Details of Sponsor / Applicant:*	
4.1 Name of Sponsor	Fogarty International Center and National Institute of Environmental Health Sciences (NIEHS) and OD/Office of Strategic Coordination (OSC) of the National Institutes of Health under Award Number U54 TW 012083
4.2 Name of Applicant	Prof Matthew Chersich
4.3 Contact Person	Dr Darshnika Pemi Lakhoo
4.3.1 Telephone number	011 3855300
4.3.2 Fax number	
4.3.3 Cell-phone number	+27 82 564 3595
4.3.4 E-mail address	dlakhoo@wrhi.ac.za
5 List of all active trial sites, address and Principal Investigators (PIs)	n/a
6 *Trial Information:*	
6.1 Date of approval of study	06 June 2023
6.2 Treatment hold (if applicable) with reasons (start date and stop date of hold should be included)	n/a
6.3 Expected date of completion	June 2026
7 *Number of participants in the trial (per site), (this section should be accumulative):*	

<table>
<tr><td>7.1</td><td>Screened (signed consent)</td><td>n/a</td></tr>
<tr><td>7.2</td><td>Randomised</td><td>n/a</td></tr>
<tr><td>7.3</td><td>Withdrawn from treatment (continue in follow up), with reasons</td><td>n/a</td></tr>
<tr><td>7.4</td><td>Withdrawn from study (early termination), with reasons</td><td>n/a</td></tr>
<tr><td>7.5</td><td>Study completed</td><td>n/a</td></tr>
<tr><td>7.6</td><td>Lost to follow-up</td><td>n/a</td></tr>
<tr><td>7.7</td><td>Deaths</td><td>n/a</td></tr>
<tr><td>8</td><td>Applicant/Sponsor comment on progress to date</td><td>We have completed the systematic mapping review in duplicate. We screened 4439 studies, of which 222 are eligible for inclusion in our individual participant data meta-analysis. We have contacted over 123 data providers, of which 6 have shared their datasets. We have 29 data providers that are in the process of signing a data transfer agreement. Four data owners have declined participation. The table below describes the datasets that we have obtained:
<table>
<tr><th>Dataset name</th><th>Data provider</th><th>Approximate number of study participants</th><th>Country</th></tr>
<tr><td>The Safe Passage Study</td><td>Prof Hein Odendaal</td><td>7060</td><td>South Africa</td></tr>
<tr><td>The effectivness of community-based support for pregnant women living with HIV: a cohort study in South Africa</td><td>Geoffrey Fatti</td><td>1105</td><td>South Africa</td></tr>
<tr><td>Low HIV incidence in pregnant and postpartum women receving a community-based combination HIV prevention internveiton in a high incidence setting in South Africa</td><td>Geoffrey Fatti</td><td>1356</td><td>South Africa</td></tr>
<tr><td>Implementing a Comprehensive Prevention of Mother-to-Child Transmission of HIV Program for South African Couples</td><td>Debra Jones Weiss</td><td>1475</td><td>South Africa</td></tr>
<tr><td>Goodstart: a cluster randomised effectiveness trial of an integrated, community-based package for maternal and newborn care, with prevention of mother-to-child transmission of HIV in a South African township.</td><td>Mark Tomlinson</td><td>3957</td><td>South Africa</td></tr>
</table>
</td></tr>
</table>

	Maternal exposure to arsenic and mercury associated risk of adverse birth outcomes in small scale gold mining communities on Northern Tanzania	Francois Bernier	1078	Tanzania
9	Summary Data Safety Monitoring Board or Safety Committee recommendations	n/a		

PART B: OVERALL SAFETY LINE LISTING

10 Safety Line Listing of all Serious Adverse Events (SAEs) and Suspected Unexpected Serious Adverse Reactions (SUSARS) for all participants per site in this study in South Africa

Note: Detailed Site Specific Line listing may be submitted as an attachment (should not be accumulative) as per Safety Reporting guideline

SAEs and SUSARS	**Relationship to study medicine (investigator's opinion)**	**Outcome(s)**
Site 1: (name of site)		
n/a	Possible (2) Probable (1) Definite (2) Unrelated (2) unknown (0)	7 patients recovered 2 still treated
Site 2: (name of site)		
Site 3: (name of site)		

Any safety issues of special concern outside South Africa		

11 Line Listing of all critical and major protocol violations at the site:

Protocol *Violation* is any change, divergence, or departure from the study design or procedures defined in the protocol that might significantly affect participants' safety, and well-being and/or the reliability of the study data.

Protocol *Deviation* is accidental or unintentional changes to, or non-compliance with the research protocol that does not increase risk or decrease benefit or does not have a significant effect on the participants, safety or well-being; and/or the reliability of the study data.

Note: South African Site Specific Line Listing of all major protocol violations may be submitted as an attachment

Site specific Protocol Deviations must be reported separately to SAHPRA, six-monthly.

Critical and Major Protocol Violations	**Resolution/Action taken**
Site 1: (name of site)	
n/a	
Site 2: (name of site)	
Site 3: (name of site)	

12 National Principal Investigator comment on other major safety concerns (this should include information impacting on the risk-benefit profile, including changes in nature, severity or frequency of risk factors, *etc.*)	n/a
13 Provide proof of current registration on South African National Clinical Trials Registry (SANCTR)	n/a
13.1 DoH Number	n/a
13.2 Enclose transcript reflecting current information from SANCTR	n/a
14 Provide the summary of investigational product: ▪ Authorized for importation ▪ Imported ▪ Used during the Clinical Trial ▪ Destroyed (include the destruction certificate(s)) and ▪ Quantity to be exported or exported	n/a
14.1 Overall comment on Investigational Product Reconciliation	n/a
15 Planned date for provision of trial results to SAHPRA and SANCTR (applicable to final progress report)	n/a
We, the undersigned, agree that we have reviewed the above-mentioned report and is accurate. The trial is conducted according to the approved protocol, South African legal, ethical and regulatory requirements. In case of deviation or Violation those are reported accordingly.	
Signature of National Principal Investigator	**Date 04/07/2023** 
Signature of Applicant/Sponsor	**Date** Darshnika Lakhoo Digitally signed by Darshnika Lakhoo DN: cn=Darshnika Lakhoo, o=Wits RHI, ou, email=dlakhoo@wrhi.ac.za, c=ZA Date: 2023.07.05 09:40:29 +02'00'

FOR SAHPRA USE ONLY:

Comments:

Action: ☐ **Continue Trial**

☐ **Further information required from Applicant / Sponsor**

☐ **Refer to Clinical Trials Committee and / or Inspectorate**

UPDATE HISTORY

Date	Reason for Update	Version & Publication
November 2017	First version published for implementation	Version 1, January 2018
May 2018	Changes to sections 1, 4, 5, 6, Part A, Part B, including change from MCC to SAHPRA	Version 2, June 2018
April 2020	Administrative	Version 3, April 2020
June 2022	Addition of sections 13, 14 and 15 Document number changed from 6.27 to GLF-CEM-CT-06A	Version 4, June 2022

Dataset name	Data provider	Approximate number of study participants	Country
The Safe Passage Study	Prof Hein Odendaal	7060	South Africa
The effectivness of community-based support for pregnant women living with HIV: a cohort study in South Africa	Geoffrey Fatti	1105	South Africa
Low HIV incidence in pregnant and postpartum women receving a community-based combination HIV prevention internveiton in a high incidence setting in South Africa	Geoffrey Fatti	1356	South Africa
Implementing a Comprehensive Prevention of Mother-to-Child Transmission of HIV Program for South African Couples	Debra Jones Weiss	1475	South Africa

Goodstart: a cluster randomised effectiveness trial of an integrated, community-based package for maternal and newborn care, with prevention of mother-to-child transmission of HIV in a South African township.	Mark Tomlinson	3957	South Africa
Maternal exposure to arsenic and mercury associated risk of adverse birth outcomes in small scale gold mining communities on Northern Tanzania	Francois Bernier	1078	Tanzania
