9. Awarding Agency Contact Information
[redacted]

10. Program Official Contact Information
[redacted]

Federal Award Information

11. Award Number
1U54TW012083-01

12. Unique Federal Award Identification Number (FAIN)
U54TW012083

13. Statutory Authority
42 USC 241 31 USC 6305 42 CFR 52

14. Federal Award Project Title
Developing data science solutions to mitigate the health impacts of climate change in Africa: the HE2AT Center

15. Assistance Listing Number
93.310

16. Assistance Listing Program Title
Trans-NIH Research Support

17. Award Action Type
New Competing (REVISED)

18. Is the Award R&D?
Yes

Summary Federal Award Financial Information

19. Budget Period Start Date 09/15/2021 – **End Date** 06/30/2022
20. Total Amount of Federal Funds Obligated by this Action [redacted]
20 a. Direct Cost Amount
20 b. Indirect Cost Amount
21. Authorized Carryover
22. Offset
23. Total Amount of Federal Funds Obligated this budget period
24. Total Approved Cost Sharing or Matching, where applicable
25. Total Federal and Non-Federal Approved this Budget Period

26. Project Period Start Date 09/15/2021 – **End Date** 06/30/2026
27. Total Amount of the Federal Award including Approved Cost Sharing or Matching this Project Period

28. Authorized Treatment of Program Income
Additional Costs

29. Grants Management Officer - Signature

SECTION I – AWARD DATA – 1U54TW012083-01 REVISED

Principal Investigator(s):
Matthew Chersich (contact)
Stanley Luchters, MD

Award e-mailed to: afarrell@witshealth.co.za

Dear Authorized Official:

The National Institutes of Health hereby revises this award (see "Award Calculation" in Section I and "Terms and Conditions" in Section III) to WITS HEALTH CONSORTIUM (PTY), LTD in support of the above referenced project. This award is pursuant to the authority of 42 USC 241 31 USC 6305 42 CFR 52 and is subject to the requirements of this statute and regulation and of other referenced, incorporated or attached terms and conditions.

Acceptance of this award, including the "Terms and Conditions," is acknowledged by the recipient when funds are drawn down or otherwise requested from the grant payment system.

Each publication, press release, or other document about research supported by an NIH award must include an acknowledgment of NIH award support and a disclaimer such as "Research reported in this publication was supported by the Fogarty International Center of the National Institutes of Health under Award Number U54TW012083. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health." Prior to issuing a press release concerning the outcome of this research, please notify the NIH awarding IC in advance to allow for coordination.

Award recipients must promote objectivity in research by establishing standards that provide a reasonable expectation that the design, conduct and reporting of research funded under NIH awards will be free from bias resulting from an Investigator's Financial Conflict of Interest (FCOI), in accordance with the 2011 revised regulation at 42 CFR Part 50 Subpart F. The Institution shall submit all FCOI reports to the NIH through the eRA Commons FCOI Module. The regulation does not apply to Phase I Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) awards. Consult the NIH website http://grants.nih.gov/grants/policy/coi/ for a link to the regulation and additional important information.

If you have any questions about this award, please direct questions to the Federal Agency contacts.

Sincerely yours,

[redacted]

SECTION II – PAYMENT/HOTLINE INFORMATION – 1U54TW012083-01 REVISED

For payment and HHS Office of Inspector General Hotline information, see the NIH Home Page at http://grants.nih.gov/grants/policy/awardconditions.htm

SECTION III – STANDARD TERMS AND CONDITIONS – 1U54TW012083-01 REVISED

This award is based on the application submitted to, and as approved by, NIH on the above-titled project and is subject to the terms and conditions incorporated either directly or by reference in the following:

a. The grant program legislation and program regulation cited in this Notice of Award.
b. Conditions on activities and expenditure of funds in other statutory requirements, such as those included in appropriations acts.
c. 45 CFR Part 75.
d. National Policy Requirements and all other requirements described in the NIH Grants Policy Statement, including addenda in effect as of the beginning date of the budget period.
e. Federal Award Performance Goals: As required by the periodic report in the RPPR or in the final progress report when applicable.
f. This award notice, INCLUDING THE TERMS AND CONDITIONS CITED BELOW.

(See NIH Home Page at http://grants.nih.gov/grants/policy/awardconditions.htm for certain references cited above.)

Research and Development (R&D): All awards issued by the National Institutes of Health (NIH) meet the definition of "Research and Development" at 45 CFR Part§ 75.2. As such, auditees should identify NIH awards as part of the R&D cluster on the Schedule of Expenditures of Federal Awards (SEFA). The auditor should test NIH awards for compliance as instructed in Part V, Clusters of Programs. NIH recognizes that some awards may have another classification for purposes of indirect costs. The auditor is not required to report the disconnect (i.e., the award is classified as R&D for Federal Audit Requirement purposes but non-research for indirect cost rate purposes), unless the auditee is charging indirect costs at a rate other than the rate(s) specified in the award document(s).

An unobligated balance may be carried over into the next budget period without Grants Management Officer prior approval.

This grant is excluded from Streamlined Noncompeting Award Procedures (SNAP).

This award is subject to the requirements of 2 CFR Part 25 for institutions to receive a Dun & Bradstreet Universal Numbering System (DUNS) number and maintain an active registration in the System for Award Management (SAM). Should a consortium/subaward be issued under this award, a DUNS requirement must be included. See http://grants.nih.gov/grants/policy/awardconditions.htm for the full NIH award term implementing this requirement and other additional information.

This award has been assigned the Federal Award Identification Number (FAIN) U54TW012083. Recipients must document the assigned FAIN on each consortium/subaward issued under this award.

Based on the project period start date of this project, this award is likely subject to the Transparency Act subaward and executive compensation reporting requirement of 2 CFR Part 170. There are conditions that may exclude this award; see http://grants.nih.gov/grants/policy/awardconditions.htm for additional award applicability information.

In accordance with P.L. 110-161, compliance with the NIH Public Access Policy is now mandatory. For more information, see NOT-OD-08-033 and the Public Access website: http://publicaccess.nih.gov/.

This award is funded by the following list of institutes. Any papers published under the auspices of this award must cite the funding support of all institutes.

Office Of The Director, National Institutes Of Health (OD) National Institute Of Environmental Health Sciences (NIEHS) Fogarty International Center (FIC)

Version: 203 - [illegible] - Generated on: 9/[illegible]/2012 12:06 AM

In accordance with the regulatory requirements provided at 45 CFR 75.113 and Appendix XII to 45 CFR Part 75, recipients that have currently active Federal grants, cooperative agreements, and procurement contracts with cumulative total value greater than $10,000,000 must report and maintain information in the System for Award Management (SAM) about civil, criminal, and administrative proceedings in connection with the award or performance of a Federal award that reached final disposition within the most recent five-year period. The recipient must also make semiannual disclosures regarding such proceedings. Proceedings information will be made publicly available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)). Full reporting requirements and procedures are found in Appendix XII to 45 CFR Part 75. This term does not apply to NIH fellowships.

Treatment of Program Income:

Additional Costs

SECTION IV – TW SPECIFIC AWARD CONDITIONS – 1U54TW012083-01 REVISED

Clinical Trial Indicator: No

This award does not support any NIH-defined Clinical Trials. See the NIH Grants Policy Statement Section 1.2 for NIH definition of Clinical Trial.

REVISED AWARD

This award has been revised for administrative purpose.

Supersedes the Notice of Award (NoA) issued: 09/21/2021

****

FIC Funding Strategy

Fogarty is currently operating under the Consolidated Appropriations Act, 2021 (Public Law 116-260), signed into law on December 27, 2020, provides funding to NIH for the Fiscal Year ending September 30, 2021.

https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-056.html

BUDGET PERIOD

Although the budget period start date for this award is 09/15/2021, this award includes funds for 12 months of support.

Future year budget periods will cycle on July 1. Allowable pre award costs may be charged to this award, in accordance with the conditions outlined in the NIH Grants Policy Statement, (October 2016), and with institutional requirements for prior approval.

FIRST TIME GRANTEES

First-time NIH grantee organizations can find information about funding, policy, and administrative issues by visiting our "Welcome Wagon letter":

http://grants.nih.gov/grants/funding/welcomewagon.htm

DISCONTINUATION OF ESCALATION

In accordance with the NIH fiscal policies described in NIH Guide Notice NOT-OD-12-036, inflationary increases for future year commitments will be discontinued for all competing and non-competing grant awards issued in FY2012 and beyond: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-12-036.html. Adjustments for special needs (such as equipment and added personnel) will continue to be accommodated. Built-in escalation must be re-budgeted.

PAYMENTS TO FOREIGN GRANT RECIPIENTS

The NIH has made several changes to the policies and procedures for awards to Foreign Institutions. Awards made on or after October 1, 2012 will now be paid through the Payment Management System (PMS).

The instructions for requesting access to the Payment Management System can be found at https://pms.psc.gov/grant-recipients/access-newuser.html. Once you have access to the Payment Management System, you can submit the banking information.

The instructions for submitting your banking information can be found at https://pms.psc.gov/grant-recipients/banking-add-change.html .

Version: 2.73.1 Report Date: Last Generated on: 9/24/2021 12:00 AM

If your User ID currently does not have the privilege to add or change banking information, please login to PMS and click on the Account Maintenance menu node. The instructions for changing access privileges can be found at the following URL: https://pms.psc.gov/grant-recipients/access-changes.html.
Please contact [redacted] with any questions about your PMS account by phone at [redacted] or by email at [redacted]

FUNDING ANNOUNCEMENT
This award is subject to the conditions set forth in RFA-TW-RM-20-015: Harnessing Data Science for Health Discovery and Innovation in Africa (DS-I Africa) Research Hubs (U54-Clinical Trial Optional)
https://grants.nih.gov/grants/guide/rfa-files/RFA-RM-20-015.html

CONSORTIUM/CONTRACTUAL COSTS
Consortia are to be established and administered as described in Chapter 15 of the NIH Grants Policy Statement: http://grants.nih.gov/grants/policy/nihgps/index.htm.

SALARY CAP
None of the funds in this award shall be used to pay the salary of an individual at a rate per year in excess of the amounts reflected in the following NIH Guide Notice NOT-OD-21-057
https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-057.html
Therefore, this award and/or future years may be adjusted through re-budgeting.

CO FUNDING
This grant is supported by the NIH Common Fund, which is managed by the OD/Office of Strategic Coordination (OSC) and the Fogarty International Center (FIC). Each publication, press release, or other document about research supported by an NIH award must include an acknowledgment of NIH Common Fund award support, Fogarty International Center and NIH award number U54 TW 012083 . Prior to issuing a press release concerning the outcome of this research, please notify the NIH awarding IC (FIC) in advance to allow for coordination For additional information, please visit http://www.nih.gov/about/publicaccess/.

ACKNOWLEDGEMENT OF FUNDING
This award includes funds in the amount of [redacted] National Institute of Environmental Health Sciences (NIEHS) and [redacted] from OD/Office of Strategic Coordination (OSC).

Each publication, press release, or other document about research supported by an NIH award must include acknowledgment of FIC, NIEHS and OD/OSC and NIH award support with the following or comparable footnote and disclaimer:
Research reported in this publication was supported by the Fogarty International Center and National Institute of Environmental Health Sciences (NIEHS) and OD/Office of Strategic Coordination (OSC) of the National Institutes of Health under Award Number U54 TW 012083. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health.
Prior to issuing a press release concerning the outcome of this research, please notify the NIH awarding IC in advance to allow for coordination.
This publication requirement applies not only to the primary grantee, but also to any subcontractors and /or trainees involved with the project.
For additional information, please visit http://www.nih.gov/about/publicaccess/.

Cooperative Agreement Terms and Conditions of Award
The following special terms of award are in addition to, and not in lieu of, otherwise applicable U.S. Office of Management and Budget (OMB) administrative guidelines, U.S. Department of Health and Human Services (DHHS) grant administration regulations at 45 CFR Part 75, and other HHS, PHS, and NIH grant administration policies.

The administrative and funding instrument used for this program will be the cooperative agreement, an "assistance" mechanism (rather than an "acquisition" mechanism), in which substantial NIH programmatic involvement with the awardees is anticipated during the

performance of the activities. Under the cooperative agreement, the NIH purpose is to support and stimulate the recipients' activities by involvement in and otherwise working jointly with the award recipients in a partnership role; it is not to assume direction, prime responsibility, or a dominant role in the activities. Consistent with this concept, the dominant role and prime responsibility resides with the awardees for the project as a whole, although specific tasks and activities may be shared among the awardees and the NIH as defined below.

Awardee and Principal Investigator Primary Responsibilities

- Planning, directing, and executing all aspects of the proposed research activities, including any modification of study design, conduct of the study, quality control, data analysis and interpretation, preparation of publications, dissemination of data, tools, and technologies, and collaboration with other investigators, unless otherwise provided for in these terms;

- Providing effective leadership and management of all activities under the award;
- Developing programmatic goals, timelines, and milestones, reporting of progress to NIH biannually, and ensuring that the outputs produced meets the quality standards agreed to at the beginning of the project by the DS-I Africa Consortium;

- Assuring compliance with all applicable DHHS/NIH policies for conduct of research and clinical trials as well as host country regulations for protection of human subjects and conduct of clinical research;

- Ensuring collaboration with the DS-I Africa Open Data Science Platform, that data resources developed as part of this project are shared according to DS-I Africa policies, and that results are published in a timely manner;
- Establishing and managing a solicitation, review, and selection process for collaborative sub-award pilot projects aligned with the Research Hub overall focus and milestones, including the distribution of yearly sub-award funds;
- Working in close coordination, cooperation, and participation with NIH staff for scientific and technical management of the project, described further under NIH Responsibilities;
- Agreeing to the governance of the Consortium through the Steering Committee, including adherence to DS-I Africa policies and procedures; and
- Serving as active members of the DS-I Africa Steering Committee, attending Steering Committee meetings, and participating directly or by proxy on relevant DS-I Africa Working Groups, both remotely through regular teleconferences and in-person at biannual DS-I Africa Consortium Meetings.

Awardees will retain custody of and have primary rights to the data and software developed under these awards, subject to Government rights of access consistent with current DHHS, PHS, and NIH policies.

NIH Responsibilities

NIH staff (including, but not limited to, Project Scientists, Program Officers, Intramural Scientists, and Program Analysts) have substantial programmatic involvement that is above and beyond the normal stewardship role in awards responsibilities include:

- Negotiating goals and milestones with the awardees as needed;
- Serving as liaisons between the awardees and the appropriate NIH Institute and Center National Advisory Councils and the NIH DS-I Africa Working Group made up of program staff that collectively manage the program;
- Participating (with DS-I Africa investigators) in the group process of deciding optimal research approaches and protocol designs, and contributing to the adjustment of research protocols or approaches as warranted;
- Attending Steering Committee meetings, serving on DS-I Africa Working Groups, and assisting in developing operating guidelines, quality control procedures, and consistent policies for dealing with recurrent situations that require coordinated action;
- Convening external consultants to support NIH oversight of the DS-I Africa consortium;
- Participating closely with Research Hub leadership for the yearly review and selection of pilot project subawards and providing final approval of the selected projects;

Version: 2.0 - 10/2020 10:52 PM - Generated on: 9/24/2021 12:06 AM

- Interacting with the PD(s)/PI(s) on a regular basis to monitor progress, which may include regular communication with the study leadership and staff, periodic site visits for discussion with the awardee research team, observation of data collection and management techniques, fiscal reviews, and other relevant stewardship matters; and
- Making recommendations for continued funding based on (a) overall research progress; (b) cooperation in carrying out the research (e.g., attendance at Steering Committee meetings, implementation of group decisions, compliance with the terms of award and reporting requirements); and/or (c) maintenance of high-quality research.
- An NIH Program Officer will be responsible for the normal scientific and programmatic stewardship of the award and will be named in the award notice. The assigned NIH Program Official may not also serve as an NIH Project Scientist.

The government, via NIH Program Scientists, will have access to all data generated under this Cooperative Agreement and may periodically review and analyze the data for the preparation of internal reports related to the Cooperative Agreement.

An NIH intramural scientist may not serve as the PD/PI of a project awarded under this FOA but may participate as a collaborator or consultant. For applications that include NIH intramural components, the involvement of intramural scientists needs to be consistent with NIH policy - https://oir.nih.gov/sourcebook/ethical-conduct/research-ethics/nih-policies/intramural-extramural-collaborations.

The NIH reserves the right to withhold funding for an individual award in the event of a substantive change in, or failure to make sufficient progress toward, the agreed-upon work scope with which the NIH cannot concur or when there are ethical issues that may dictate a premature close-out.

Collaborative Responsibilities

A Steering Committee (SC) will serve as the governing board for awardees. All participants in the program are bound by the policies and procedures developed by the SC and adoption of such policies and procedures requires a majority vote. Membership on the SC will include the PI(s) of each award and associated NIH program officers and projects scientists. On voting matters, each funded project will have one vote for determining appropriate collaborative activities, with NIH providing final approval for consortium activities. The chair will be chosen by a majority vote of the SC, with years of service as chair determined by the committee. The chair, in collaboration with the associated program Coordinating Center staff, is responsible for preparing meeting agendas, for chairing meetings, and for approving minutes in a timely manner. NIH staff may not serve as Chair of the SC.

Steering Committee responsibilities include:

- Discussing progress in meeting the broad goals of various DS-I Africa projects (while maintaining appropriate project-specific protection of intellectual property) and of DS-I Africa as a whole;
- Developing recommendations for uniform procedures and policies necessary to meet the goals of the Consortium, for example for data quality measures and assessment as well as conventions for data sharing;
- Cooperating to ensure the timely and broad dissemination of lessons learned to inform researchers and health care systems engaged in data science for health discovery and innovation in Africa;
- Endorsing and overseeing progress and products of Working Groups within the Consortium; and
- Meeting twice a year in-person in conjunction with Consortium meetings and conducting regularly scheduled conference calls.

Dispute Resolution

Any disagreements that may arise in scientific or programmatic matters (within the scope of the award) between award recipients and the NIH may be brought to Dispute Resolution and a Dispute Resolution Panel will be convened. The Panel will have three members: a designee of the Steering Committee chosen without NIH staff voting, one NIH designee, and a third designee with expertise in the relevant area who is chosen by the other two; in the case of individual

Version: 9/23/2021 10:54 PM | Generated on: 9/24/2021 12:06 AM

disagreement, the first member may be chosen by the individual awardee. This special dispute resolution procedure does not alter the awardee's right to appeal an adverse action that is otherwise appealable in accordance with PHS regulation 42 CFR Part 50, Subpart D and DHHS regulation 45 CFR Part 16.

MILESTONES

The PI(s) will establish project milestones in consultation with NIH staff within 2 months after the initial award. Afterwards, milestones can be re-negotiated with the grantee on an annual basis. To allow assessment of the attainment of milestones, grantees must submit bi-annual progress reports in a format to be specified by NIH staff at a later date. Milestones are linked to the annual funding cycle and submission of the annual progress report. The plan includes the specific criteria to be used in evaluating the degree of progress made in achieving each milestone.
To receive consideration for funding of each successive year, the annual progress report and updated milestones/timelines must be received two months prior to the end of the current funding period, demonstrating that the milestones defined for that funding year have been met. The award may be adjusted in time or funding, as necessary, if the grantee fails to meet the agreed upon milestones.

RESOURCE SHARING AND RELEASE

Grantee organization must comply with Public Health Service (PHS) policy relating to distribution of unique research resources produced with PHS funding (NIH Grants Policy Statement (11/16) - Availability of Research Results: Publications, Intellectual Property Rights, and Sharing Research Resources). If applicable, grantee should also comply with the NIH-DOE guidelines for access to mapping and sequencing data and materials resources, adopted by the NIH-DOE joint subcommittee on December 7, 1992 (See: http://www.genome.gov/10000925) and with the NIH Genomic Data Sharing Policy for large-scale sequencing projects (See: https://osp.od.nih.gov/scientific-sharing/genomic-data-sharing/). For further information see: NIH Data Sharing Policy: http://grants.nih.gov/grants/policy/data_sharing/.

HUMAN SUBJECTS – IRB DATE PROVIDED

This award includes human subject research studies and must conform to the DHHS policies for the Protection of Human Subjects research, which are a term and condition of award. Human subjects research is covered by the 2018 Common Rule, and may not be initiated until the associated protocols have received IRB approval as specified in 45 CFR 46.
If there are any subawards or training activities, the parent grant continues to be responsible for all human subject's research conducted under the award, and must provide oversight and monitoring of all human subjects research activities commensurate with its legal role and responsibilities to assure appropriate protections for human subjects in research.
The IRB date provided in this application represents:

- All current and future protocols for the parent grantee, subcontracts, and training activities have active IRB approval as specified in 45 CFR 46.
- This date doesn't represent a provisional or conditional approval.

Failure to comply with the terms and conditions of award may result in the disallowance of costs and/or additional enforcement actions as outlined in Section 8.5 of the NIH Grants Policy Statement.

REQUIRED EDUCATION IN THE PROTECTION OF HUMAN RESEARCH PARTICIPANTS

Investigators must ensure that the description of the education completed in the protection of human subjects for each individual, identified as "key personnel", in the proposed research has been documented and provided to the FIC awarding office. Key personnel include all individuals responsible for the design and conduct of the study. The Notice for this policy can be found at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-00-039.html.

UNIFORM GRANT GUIDANCE AND REVISED NIH GRANTS POLICY STATEMENT

Per Notice Number NOT-OD-15-046, the Department of Health and Human Services published an interim rule adapting OMB's final Uniform Grant Guidance in 2 CFR part 200 with certain amendments, based on existing HHS regulations, to supplement the guidance as needed for the Department effective December 26, 2014. Per NOT-OD-19-021 a revised NIH Grants Policy

Version: 3.3 - 12/2/2021 1:17:17 PM | Generated on: 9/23/2021 12:06 AM

Statement was published; the revision is applicable to all NIH grants and cooperative agreements with budget periods beginning on or after October 1, 2018. Links to the revised Grants Policy Statement and a document summarizing the significant changes that were implemented are provided in the Notice.
Highlighted below are some select items of costs of particular note to FIC grant recipients
F&A for Foreign and International Organizations: NIH and FIC continue to provide F&A costs under grants to foreign and international organizations will be funded at a rate of 8 percent of modified total direct costs, exclusive of equipment, consistent with existing policy.
F&A for Career/Fellowship/Training Awards: NIH and FIC continue to provide F&A costs under research training, some education grants, and Career (K) awards will be funded at a rate of 8 percent of modified total direct costs, exclusive of tuition and fees, health insurance (when awarded as part of tuition and fees), equipment, and consortiums in excess of $25,000, consistent with existing policy.
Value Added Tax: Foreign taxes charged for the purchase of goods or services that a non-Federal entity is legally required to pay in country is an allowable expense under Federal awards. However, for many countries an exemption of this tax for research exists. Consequently, requesting this cost should be unallowable for research grants involving such countries as a performance site.
Visa Costs: Allowable as a direct cost as part of recruiting costs on an NIH grant. Allowable as a trainee cost and not allowable for other non-trainee project personnel, consistent with existing FIC policy. Visa costs may be allowable when identified in specific FOAs or when within the scope of an approved research project. Generally, allowable **direct cost** as part of recruiting costs on an NIH grant, as long as the institution has an employee/employer relationship with the individual

eRA Commons User IDs to Individuals in Graduate and Undergraduate Student Project Roles with Measurable Effort on an NIH Annual Progress Report (NOT-OD-13-097) **released August 2, 2013**.
Since October 2014, RPPR are not accepted by the NIH without eRA Commons ID for Graduate and Undergraduate Students and are receiving an error while submission of RPPR. Any individual with an Undergraduate, Graduate Student, and/or Postdoctoral Role who participates in a NIH-funded project for at least one person month (160 hours) or more training in the past reporting period should be registered in the eRA Commons and should verify that all Personal Information located within the Personal Profile tab in the eRA Commons System is accurate. This is required regardless of whether salary is actually charged to the project. For graduate students supported on a particular research grant, this could include project roles of graduate research assistant or graduate student. For postdoctoral individuals supported on a particular research grant, this could include project roles such as Postdoctoral Associate and other similar Postdoctoral positions.
When an individual is assigned the Undergraduate, Graduate Student, or Postdoctoral Role in the Commons, responses to certain data items in the Personal Profile tab are required to meet NIH reporting requirements to Congress included in the NIH Reform Act, P.L. 109-482. The Commons user name ID for those with an Undergraduate, Graduate Student, or Postdoctoral Role is not required at the time of application submission, but required as part of the Research Performance Progress Report (RPPR).
Grant recipients must provide the list in Section D.1 of the RPPR for each trainee/scholar supported by the grant award during the reporting period. Additional information on this requirement can be found in the FIC Progress Report Supplemental Guidance on the FIC webpage: http://www.fic.nih.gov/Grants/Pages/progress-reports.aspx

CHANGES IN SCOPE
Prior approval must be obtained from the NIH awarding component for any changes in the direction, type of research or training, the use of human or animal subjects, or other areas that constitute a significant change from the aims, objectives, purpose, or scope of the approved project.

F&A COSTS
Limited F&A of 8% for administrative costs is provided to support the administrative needs of managing this project. F&A charges are limited to eight percent for both domestic and foreign research training partners. Consortia institutions also may only charge eight percent of applicable direct costs for F&A.

[illegible] | Generated on 9/24/2021 12:06 AM

RESTRICTION AGAINST MEAL COSTS
In accordance with the NIH Grants Policy Statement, when certain meals are an integral and necessary part of a meeting or conference (i.e., a working meal where business is transacted), grant funds may be used for such meals. Unless part of a working meal, grant funds may not be used. Recurring business meetings, such as staff meetings, should not be broadly considered as working meetings in order to justify charging meals or refreshment costs to grants.

RESTRICTION AGAINST HONORARIA
In accordance with the NIH Grants Policy Statement, honoraria are not allowed when the primary intent is to confer distinction on, or to symbolize respect, esteem, or admiration for, the recipient of the honorarium. A payment for services rendered, such as a speaker's fee is allowable.

FOREIGN TRAVEL
U.S. Flag carriers must be used for departure from or entry into the U.S. and for other portions of the trip where available.

RESPONSIBLE CONDUCT OF RESEARCH
NIH policy requires instruction in responsible conduct of research by individuals supported by any NIH research training or career awards. It is expected that course attendance is monitored and that a certificate or documentation of participation is available upon course completion. NIH does not require certification of compliance or submission of documentation, but expects institutions to maintain records sufficient to demonstrate that NIH-supported trainees, fellows, and scholars have received the required instruction.
Each annual progress report must include the following information about activities that took place during the past budget period:
* a description of the instruction in responsible conduct of research (RCR)
* a description of who received RCR instruction
* a description of any enhancements and/or modifications to the five instructional components described in the competing application or the previous year's progress report
* a list of names of faculty who contributed to formal instruction in RCR and the specific training they provided
More information is available in the NIH Guide Notice NOT-OD-10-019
http://grants.nih.gov/grants/guide/notice-files/NOT-OD-10-019.html

ANNUAL FEDERAL FINANCIAL REPORT
Mandatory Submission of the Federal Financial Report (FFR) in the Payment Management System Beginning January 1, 2021
Beginning January 1, 2021, NIH recipients must submit required annual and final FFRs in PMS. Recipients who have FFRs that are a work-in-progress in the eRA Commons/FFR module as of January 1, 2021, will need to restart the FFR in PMS.

- Recipient staff responsible for completing and submitting FFRs must register with PMS to obtain log in credentials prior to submitting an FFR.
- Recipients can directly access PMS via the new Manage FFR button in eRA Commons.. This button will take the recipient directly to PMS, where the recipient will log in and be taken to the *Federal Financial Report — Details screen* for the given award in PMS. Once the FFR is completed, the recipient will submit it to NIH in PMS.
- Recipients will still be able to see the current status of their submission in the eRA Commons/FFR module.
- Recipients may also search for and access FFRs directly in PMS in most cases.
- Recipients who need to revise FFR submissions should do so in PMS in most cases.
- Recipients unable to locate FFRs in PMS should contact the eRA Service Desk for assistance.
  Note: Due to data migration considerations and data elements contained in older FFRs, some previously accepted FFRs may not be migrated to PMS. Examples of FFRs that may not be migrated include: FFRs for direct awards to foreign institutions issued prior to October 1, 2012; awards made to PMS pooled accounts; and FFRs reporting more than ten F&A rates.

Guide Notice - https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-046.html'
Questions regarding the FFR may also be addressed here:

FUTURE NONCOMPETING PROGRESS REPORTS

The National Institutes of Health (NIH) requires grantees to submit all type 5 progress reports using the Research Performance Progress Report (RPPR) module in eRA Commons in accordance with Guide Notice NOT-OD-15-014. Additional information and resources on the RPPR, including the current RPPR Instruction Guide and training archives, can be found at: http://grants.nih.gov/grants/rppr/.

FIC RPPR Supplemental Instructions

All Fogarty grant recipients must refer to the Progress Report Guidance on the FIC website for additional guidance and instructions on information that is required to be reported on the RPPR for Fogarty grant awards. Please refer to the Guidance for the appropriate grant activity type. All FIC supplemental RPPR guidance can be found at: http://www.fic.nih.gov/Grants/Pages/progress-reports.aspx.

ASSURANCES

For foreign awards, assurances for Research Misconduct, Lobbying, Drug-Free Workplace, Delinquent Federal Debt, Financial Conflict of Interest and Debarment are required. The signature of an authorized organizational official on the grant application certifies that the organization will comply with all applicable assurances and certifications referenced in the application. Further information regarding public policy requirements and objectives applicable to NIH awards may be found in Chapter 16.4 of the NIH Grants Policy Statement: http://grants.nih.gov/grants/policy/nihgps/index.htm.

INTEREST EARNED ON ADVANCES OF GRANT FUNDS

NIH grantees subject to the requirements of 2 CFR part 200 that receives advance payments must maintain those advances in an interest-bearing account (2 CFR 200.305.8). The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program or project costs. However, any interest on Federal advances of grant funds that exceeds US$500 per year in the aggregate must be remitted annually to the Department of Health and Human Services, Payment Management System, PO Box 6021, Rockville, MD 20852 (as the government-wide agent for collection). Interest amounts up to US$500 per year may be retained by the recipient for administrative expenses (2 CFR 200.305.9).

RESEARCH MISCONDUCT

The regulations governing research misconduct require the grantee to submit an annual report (Form 6349) to the Office of Research Integrity (ORI) detailing aggregate information on allegations, inquiries, and investigations handled by the grantee in the previous year. ORI automatically sends this form to NIH grantees at the end of the calendar year. Any questions regarding misconduct issues may be addressed to the office below:

AUDIT REQUIREMENT

A foreign organization is required to have a non-Federal audit if:
*It has expended a total of $750,000 or more under one or more HHS award (as a direct grantee and/or under a consortium participant and at least one of those awards is an HHS grant).
If an audit is required, there are two options regarding the type of audit that will satisfy the audit requirements. The grantee may have EITHER:

Version: 09/17/2021 10:14 PM | Generated on: 9/24/2021 12:06 AM

(1) a financial-related audit (as defined in, and in accordance with, the Government Auditing Standards (commonly known as the <Yellow Book>), GPO stock 020-000- 00-265-4, of all the HHS awards
(2) an audit that meets the requirements of OMB Circular A-133.
The requirements for non-Federal audits of foreign organizations are specified in 2 CFR 200 which incorporates the thresholds and deadlines of OMB Circular A-133.

If there are any audit findings concerning grant funds, you must send a copy of the audit the FIC Grants Management Specialist associated with this grant.

The Government Auditing Standards are available electronically at http://www.gao.gov/govaud/ybk01.htm. Audits must be completed and submitted to the following office within 30 days after receipt of the auditors report(s), or 9 months after the end of the audit period, i.e., the end of the organizations fiscal year, whichever is earlier. The address is:
